# FLEXIBLE PACKAGING

---

- Innovative
  - Widely Extendible Into Diverse Product Categories
  - Maintains and Indicates Freshness
  - Offers Consumer Conveniences
  - Provides Reclosure and Dispensing Options
  - Is Easily Transported and Stored
  - Creates Shelf Appeal
  - Enables Visibility of Contents
  - Provides Efficient Product to Package Ratios
  - Uses Less Energy
  - Creates Fewer Emissions
  - Creates Less Waste in the First Place®
- 

As one of the fastest growing segments of the packaging industry, flexible packaging combines the best qualities of plastic, film, paper and aluminum foil to deliver a broad range of protective properties while employing a minimum of material.

Typically taking the shape of a bag, pouch, liner, or overwrap, flexible packaging is defined as any package or any part of a package whose shape can be readily changed.

Flexible packages are used for consumer and institutional products and in industrial applications, to protect, market, and distribute a vast array of products.

Leading the way in packaging innovation, flexible packaging adds value and marketability to food and non-food products alike. From ensuring food safety and extending shelf life, to providing even heating, barrier protection, ease of use, resealability and superb printability, the industry continues to advance at an unprecedented rate.

The life cycle attributes of flexible packaging demonstrate many sustainable advantages. Flexible packaging starts with less waste in the first place, greatly reducing landfill discards. Innovation and technology have enabled flexible packaging manufacturers to use fewer natural resources in the creation of their packaging, and improvements in production processes have reduced water and energy consumption, greenhouse gas emissions and volatile organic compounds. Even more, lighter-weight flexible packaging results in less transportation-related energy and fossil fuel consumption, and environmental pollution.

With its versatility, custom qualities, efficiency in conserving resources, and sustainability, there's no better time to consider flexible packaging for your new product line or as an upgrade to an existing package.

## FLEXIBLE PACKAGING MANUFACTURERS

### **Admiral Packaging, Inc.**

10 Admiral Street  
Providence, RI 02908  
tel: 401-274-7000 • fax: 401-331-1910  
info@admiralpkg.com  
www.admiralpkg.com

*Admiral is a converter of flexible packaging. Our capabilities include in house graphics, up to 10 color flexo printing, adhesive lamination, rollstock, and converted bags and pouches.*

### **Amcor Flexibles**

1919 S. Butterfield Road  
Mundelein, IL 60060  
tel: 847-362-9000 • fax: 847-918-4600  
flexibles@amcor.com  
www.amcor.com

*Amcor Flexibles Americas (AFA) is a division of Amcor, the world's largest supplier of flexible packaging. With 16 plants in 7 countries across the Americas, we deliver innovative packaging solutions and provide enhanced quality products for the food, beverage, pharma, personal care, medical and industrial markets. Our award winning approach towards sustainability makes Amcor Flexibles Americas the preferred partner for customers looking for responsible packaging solutions. For more information visit [www.amcor.com](http://www.amcor.com).*

### **American Packaging Corporation**

777 Driving Park Avenue  
Rochester, NY 14613  
tel: 585-254-9500 • fax: 585-254-5801  
info@ampkcorp.com  
www.ampkcorp.com

*For over 115 years, American Packaging Corporation has proudly served the flexible packaging industry. A family owned business, American Packaging is solely focused on flexible packaging. An industry leading rate of re-investment in innovation and converting technologies has enabled American Packaging to expand rapidly and deliver a portfolio of innovative products for and with customers. The company offers a complete portfolio of packaging solutions for a wide range of markets including: dry foods, coffee and tea, refrigerated dairy and fresh produce, frozen products, confectionery, healthcare, pharmaceutical, personal care, hard to hold products, liquids, and other specialty items. American Packaging specializes in high definition flexographic printing, rotogravure printing, engineered extrusion, co-extrusion and adhesive laminations, heat and cold seal technologies, and pouch fabrication with a variety of special features. Remaining steadfast to its core values, along with a strong focus on sustainability, American Packaging will continue to serve many of the world's most respected companies.*

*Polymer Packaging Inc. is a premier toll converter and integrator of flexible packaging products. We provide many types of value-added packaging including reclosable packaging, Inno Lok pre-applied zipper and stand up pouches, to name a few. PPI toll manufactures for printers and converters and partners with these same converters to bring unique packaging solutions to market. We provide technical support and offer design and product development services.*

### **PPC Flexible Packaging**

1111 Busch Parkway  
Buffalo Grove, Illinois 60089  
tel: 847-541-0000  
info@ppcflex.com  
www.PPCflex.com

*A leading manufacturer of custom flexible packaging for food and healthcare industries. PPC Flexible Packaging focuses on two primary market segments—consumer packaging and precision clean packaging. The consumer division focuses on food, “better for you,” organic, snack, produce, bakery, and pet food retail packaging, while the precision clean division focuses on healthcare, clean room, critical environment, and microelectronic packaging. PPC Flexible currently operates out of three locations, Buffalo Grove, IL; Mission, KS; and Rome, GA. Our Buffalo Grove location includes two industry leading clean rooms class ISO Class 4 and ISO Class 7. Our capabilities include 10 color flexo-graphic printing, extrusion and adhesive lamination, pouch and bag making.*

### **Precision Color Graphics Ltd. & Specialty Packaging Technologies Inc., a wholly owned subsidiary**

2756 Alft Lane  
Elgin, IL 60124  
tel: 414-209-0808  
sales@specialtypackagingtechnologies.com  
www.specialtypackagingtechnologies.com

*Specialty Packaging Technologies, Inc. (“SPT”) is a flexible packaging manufacturer primarily focused on the manufacturing of premade pouches, utilizing the latest innovations and technologies in pouch production equipment, offering customized pouches for a diverse, ever-increasing demand in a variety of markets. Custom features include: fitments/spouts, resealable zipper, in-line die-cut shapes, bottom/top/side gussets, and more. SPT has a strong presence in the pet food, HBA, food, natural/organic products, and general CPG markets. SPT offers in-house creative design and marketing support for new product development.*

### **Prime Packaging, LLC**

Cy Harris  
Vice President Sales and Marketing  
501 N. Central Avenue  
Wood Dale, IL 60191

charris@primepkg.com  
www.primepkg.com

*Prime Packaging is a leading provider of innovative flexible packaging solutions, decorative labels, and printed cartons to consumer product companies within food, beverage, personal care, medical and private label markets. Prime Packaging is known for its award-winning flexographic printing and quick turnarounds of shrink sleeves, flexible packaging, roll fed labels, and offset printed folding cartons.*

### **Printpack**

PO Box 723608  
Atlanta, GA 31139  
tel: 404-460-7000 • fax: 404-696-1705  
info@printpack.com  
www.printpack.com

*Founded in 1956 and headquartered in Atlanta, GA, Printpack is a privately-held manufacturer of flexible and specialty rigid packaging. Employing over 3,200 associates worldwide, the company operates 19 manufacturing facilities in the United States, Mexico, and China. By combining our unique insights into consumer preference with advanced technological capabilities, Printpack can heighten brand recognition and help capture market share.*

## FLEXIBLE PACKAGING MANUFACTURERS

### ProAmpac

Molly Speer  
Marketing Communications Manager  
12025 Tricon Road  
Cincinnati, OH 45246  
tel: 513-671-1777  
molly.speer@proampac.com  
www.proampac.com

*ProAmpac is a leading producer of flexible packaging material for engineered applications in the packaged food, consumer, health care, and industrial packaging markets.*

### Rollprint Packaging Products, Inc.

320 S. Stewart Avenue  
Addison, IL 60101  
tel: 630-628-1700 • fax: 630-628-8510  
mail@rollprint.com  
www.rollprint.com

*Rollprint Packaging Products is a science-driven integrated flexible packaging manufacturer that supports the healthcare, life sciences, electronics, household, and other highly demanding markets. Rollprint provides its customers with the highest levels of innovation and technical assistance frequently supporting first-to-market packaging concepts. Our goal is to create value through science, engineering, collaboration and best-in-class service. Cutting-edge technology in clear high-barrier films, foil composites, peelable solutions, and chemically resistant materials ensures the ideal solution.*

### Sealed Air Corporation

2415 Cascade Pointe Boulevard  
Charlotte, NC 28208  
tel: 980-430-7408  
cryovac.mkt@sealedair.com  
www.sealedair.com, www.cryovac.com

*Sealed Air creates a better way for life. At Sealed Air, our goal is to protect a growing world with sustainable solutions that improve food safety and security, help create a cleaner, healthier environment and safeguard against damage and loss. Our widely recognized brands include Cryovac® food packaging, Cryovac® shrink films, BubbleWrap® protective packaging, Darfresh® skin films, and CogniPro® Linked Services.*

### Sealstrip Corporation

Jo Anne Forman  
Director of Product Development  
103 Industrial Drive  
Gilbertsville, PA 19525  
tel: 610-367-6282 • fax: 610-367-7727  
jforman@sealstrip.com  
www.sealstrip.com

*Sealstrip provides resealable and easy open packaging solutions for flexible packaging. We offer the complete system of retrofit applicators and quality pressure sensitive materials. AIB certified.*

### Sonoco Flexible Packaging

1 North 2nd Street  
Hartsville, SC 29550  
tel: 843-383-7033 • fax: 843-339-6501  
info@sonoco.com  
www.sonoco.com

*Sonoco Flexible Packaging has been part of the Sonoco family of companies since 1993, building a reputation as a leader in rotogravure and flexographic printing, sophisticated laminates, and heat and cold seal technology across North America.*

### Southern Graphic Systems LLC

626 W. Main Street  
Suite 500  
Louisville, KY 40232  
tel: 502-637-5443 • fax: 502-379-5231  
info@sgsco.com  
www.sgsco.com

*Sgsco is a global collective of companies, talent and expertise, collaborating to help brands own every moment when a consumer's interest can be converted into action. Production SGS takes ideas and makes them shine through every aspect of packaging and marketing production; we have the processes, technology and people to make concepts come to life and be the best they can be.*

*The Moment of Sale™ is the most crucial moment for brands and consumers alike; the mere seconds when the brand must inform, persuade, and convince the consumer to purchase. No medium does this better than the package. Our worldwide production engine helps countless leading brands stand out in the increasingly fragmented path to purchase, in both physical and digital spaces. Get in touch to learn more about The Moment of Sale™ and how we apply it to our approach to consumer engagement.*

## FLEXIBLE PACKAGING MANUFACTURERS

### **St. Johns Packaging Ltd.**

80 Moreau Street  
Saint-Jean-sur-Richelieu, Quebec J2W 2M4  
Canada  
tel: 450-349-5871 ● fax: 450-349-3313  
sales@sjpack.com  
www.sjpack.com

*St. Johns Packaging is a vertically integrated manufacturer of flexible packaging products (bags, pouches, etc.) that are sold to leading food and personal care companies.*

### **Südpack Oak Creek Corporation**

9905 South Ridgeview Drive  
Oak Creek, WI 53154  
tel: 414-761-2751  
usa@suedpack.com  
www.suedpack.com

*Südpack Oak Creek Corporation is a full subsidiary of Südpack Group, headquartered in south Germany.*

*Südpack is a flexible packaging solution supplier with blown film extrusion, cast film extrusion, flexographic printing, rotogravure printing, digital printing, lamination, slitting, and bag making.*

### **SunFlex Packagers Inc.**

Elmhurst, IL 60126  
print@bemaprint.com  
www.bemaprint.com

*Within our specialty of flexographic printing, laminating and converting, we will retain a pre-eminent position in the marketplace by satisfying the needs of our customers by providing exemplary products and services that represent the best value. Bema's services include blown film extrusion, HD digital pre-press, flexo printing, lamination, slitting, bag and pouch making. We are located in Elmhurst, IL, and our LLDPE extrusion facility (Elite Extrusion) is located in St. Charles, IL.*

### **Berry Global**

101 Oakley Street  
Evansville, IN 47710  
tel: 812-306-2230  
info@berryglobal.com  
www.berryglobal.com

*Berry Global is a leading global manufacturer of flexible packaging materials since 1967. Serving all packaging markets with more than 80 plants around the world, our commitment to innovation includes state-of-the-art technology to supporting our customer dynamic performance and development needs. Our manufacturing capabilities include multi-layer blown films, thermal lamination, coatings and both flexographic and gravure printing all with a sustainability focus. Whether it is an existing material or new technology, Berry is able to provide solutions for your flexible packaging needs.*

### **BioLogiQ, Inc.**

2400 East 25th Street  
Idaho Falls, ID 83404  
tel: 208-357-9652  
info@BiologiQ.com  
www.biologiQ.com

*BiologiQ produces a plant based bioplastic resin that is recyclable, biodegradable, sustainable, and affordable utilizing proprietary equipment, processes and formulations that have won industry acclaim. Our NuPlastiQ biopolymers resin can be blended with fossil fuel resins to increase strength, performance and sustainability. Plastics made with NuPlastiQ can be recycled and composted where composting facilities exist. Located in Idaho, serving flexible film and sheet packaging, injection molding, blow molding, and thermoforming customers globally. BiologiQ's mission is to provide a way to use environmentally friendly plastic products made from renewable resources.*

### **Bobst North America Inc.**

146 Harrison Avenue  
Roseland, NJ 07068  
tel: 973-226-8000 ● fax: 973-226-8625  
info@bobst.com  
www.bobst.com

*BOBST is the world's leading supplier of equipment and services to packaging and label manufacturers in the folding carton, corrugated board, and flexible material industries. Founded in 1890 by Joseph Bobst in Lausanne, Switzerland, BOBST has a presence in more than 50 countries, runs 11 production facilities in 8 countries, and employs over 4,800 people around the world.*

*BOBST is a proud supplier to the flexible packaging industry through its C.I. flexographic presses; in-line label and flexible packaging presses, rotogravure presses; coating and laminating lines, and vacuum metallizing equipment.*

### **Bostik, Inc.**

Corey Schoenherr  
Manager, Business Development - Packaging  
11320 Watertown Plank Road  
Wauwatosa, WI 53226  
tel: 630-401-5683  
corey.schoenherr@bostik.com  
www.bostik.com

*Bostik is a global supplier of adhesives and coatings for the packaging converting industry. We have world class technology in Turbo-Seal® cold seal adhesives; Vitel® copolyester resins and adhesives; Herberts adhesives for laminating, gloss lacquers and heat seal coatings. Our three global R&D centers are located in China, France, and the U.S. to provide you the latest technology, with 11 applied technology centers spread throughout the world.*

## SUPPLIERS TO FLEXIBLE PACKAGING MANUFACTURERS

### **Celanese Corporation**

Richard Jacobs

Orange, TX 77630  
tel: 409-883-0943 ● fax: 409-886-5570  
contact@cloeren.com  
www.cloeren.com

*Cloeren Incorporated is the leading global innovator in feedblock and extrusion die technology. Cloeren designs and manufactures customized feedblocks, NanoLayer™ feedblocks, single and multi-manifold dies.*

### **Coim USA, Inc.**

286 Mantua Grove Road  
West Deptford, NJ 08066  
tel: 800-345-8380 ● fax: 609-482-8999  
adhesives@us.coimgroup.com  
www.coimgroup.com

*A top 3 global manufacturer of adhesives and coatings for flexible packaging.*

**Comexi North America, Inc.**

6135 Park South Drive, Suite 510  
Charlotte, NC 28210  
tel: 980-237-6913 ● fax: 980-237-0272  
info@comexi.com  
www.comexi.com

*Comexi, founded in 1954 by the Xifra family, has wide experience in manufacturing capital goods for the flexible packaging conversion industry. Comexi is made up of five product lines, each one specialised in a different conversion process: flexography print, offset print, rotogravure print, laminating, slitting and rewinding, as well as logistics complements.*

*Comexi includes the Manel Xifra Boada Technological Centre (CTec), created in 2013, where the company provides support and transfers its knowledge to the various agents involved in the flexible printing industrial process, following the philosophy of Comexi's founder. As a knowledge driver, CTec services cover several processes of the flexible packaging field and are divided into four areas: consultancy, innovation services, Demo Centre and Industrial Laboratory and training, and academic activities.*

*The company has more than 36,000 m2. divided into three production centres in Riudellots de la Selva (Girona, Spain), in Montenegro (Rio Grande do Sul, Brazil) and in Piacenza (Italy). Furthermore, in order to attend to and give optimum responses to its clients, Comexi has a commercial network in over 100 countries and a spare parts network, with immediate technical assistance available, so as to minimise the waiting time due to travelling and logistics.*

**Cosmo Films Limited**

775 West Belden Avenue  
Suite D  
Addison, IL 60101  
tel: 800-422-7655 ● fax: 800-422-2260  
info@cosmofilms.com  
www.cosmofilmsna.com

*Established in 1981, Cosmo Films Limited is one of the largest manufacturers of biaxially oriented polypropylene (BOPP) films in the world.*

*With manufacturing units in India, Korea, and USA, Cosmo has a BOPP manufacturing capacity of 136,000 TPA and a sales turnover of USD \$249 million (INR 16.2 billion) in FY 2015-16. Cosmo is the largest BOPP films exporter from India and the world's largest manufacturer of thermal lamination films.*

*Cosmo offers a comprehensive range of BOPP films for flexible packaging, lamination, labelling, and industrial applications, including speciality films, such as high barrier films, velvet thermal lamination films and direct thermal printable films.*

**Coveris**

8600 W. Bryn Mawr Avenue  
Suite 800N  
Chicago, IL 60631  
tel: 773-877-3300 ● fax: 773-877-3301  
info@coveris.com  
www.coveris.com

*As a leading international manufacturing company, Coveris is dedicated to providing solutions that enhance the safety, quality, and convenience of products we use every day. In partnership with the most respected brands in the world, Coveris develops vital products that protect everything from the food we eat, to medical supplies, to the touch screen device in our pockets, contributing to the lives of millions every day.*

**Davis-Standard, LLC**

1 Extrusion Drive  
Pawcatuck, CT 06379  
tel: 860-599-1010 ● fax: 860-599-6258  
info@davis-standard.com  
www.davis-standard.com

*Davis-Standard is a global leader in the design, development, and manufacturing of extrusion and converting systems. Our technology and solutions encompass over 10 product lines to support applications and customers within every major market segment; serving customers in the agricultural, automotive, building, flexible packaging, medical, web converting, consumer, and industrial product industries, among others. Our extensive feed screw technology, durable equipment, leading technology and innovation in the fields of extrusion coating, laminating, liquid coating, cast film, blown film, winders, and aftermarket support, is globally recognized. At Davis-Standard, we are committed to engineering equipment that is cost effective, environmentally friendly, and offers a high return on investment.*

## SUPPLIERS TO FLEXIBLE PACKAGING MANUFACTURERS

### DowDuPont

2211 H.H. Dow Way  
Midland, MI 48674  
tel: 312-379-7784 ● fax: 866-635-1582  
info@dow.com

*TKM is a recognized leader in the production of industrial knives and saws, with a high focus on quality and service for the flexible packaging industry. TKM produces a wide range of doctor blades with various materials and tip configurations to suit even the most complex applications in both flexographic and gravure environments. Our detailed technical support helps our customers achieve their printing goals on-time and cost effectively.*

### **Toppan USA, Inc.**

603 Rehoboth Road  
Griffin, GA 30224  
tel: 770-467-5900 ● fax: 770-467-5905  
sales@toppan-usa.com  
www.toppan-usa.com

*Toppan USA, Inc. is a Georgia, USA based subsidiary of Toppan Printing Co., Ltd. in Japan, one of the largest printing companies in the world. Toppan USA is Toppan Printing's first overseas production base for transparent barrier film such as the top transparent barrier film "GL FILM."*

*GL FILM consists of a base layer (PET, OPA, etc.), an inorganic vapor deposition layer (alumina, silica, etc.), and a barrier coat layer. The multi-layer structure combining a proprietary coat layer and high quality vapor deposition layer facilitates lamination and ensures stable barrier performance.*

*As a top brand in the transparent barrier film market, GL FILM is currently used for approximately 15,000 products in around 45 countries and regions thanks to a wealth of variations suited to different purposes and the world's highest level barrier performance, achieved using original vapor deposition technology.*

### **Toyo Ink America, LLC**

packaging@toyoink.com  
www.toyoink.com

*Toyo Ink Manufacturing was established in Japan in 1907. In 1976, Toyo Ink America (TIA) started business in the United States. TIA offers an extensive array of flexographic, gravure, and ultraviolet ink products for the flexible packaging, paper packaging, and label printing markets, both wide and narrow web applications. We provide our global customer base with a comprehensive line of inks, adhesives, and film products that deliver vibrant color, excellent print quality, and high performance properties, regardless of the substrate or converting process.*

### **Transcendia**

9201 W. Belmont Avenue  
Franklin Park, IL 60131  
tel: 847-678-1800 ● fax: 847-233-0199  
filmsales@transcendia.com  
www.transcendia.com

*Transcendia specializes in manufacturing and precision converting flexible packaging and lidding films for use by converters and direct end users. Transcendia's polyester, polypropylene, polystyrene, acetate, cellophane and nylon film structures are designed specifically for food, non-food, and healthcare packaging applications. Transcendia's North American facilities network features ISO 9001 certifications and manufacturing and converting sites that carry top AIB (American Institute of Baking) ratings for dependable food packaging safety.*

## SUPPLIERS TO FLEXIBLE PACKAGING MANUFACTURERS

### Transplace

511 Rhett Street  
PO Box 27127  
Greenville, SC 29616  
tel: 866-672-2862 ● fax: 864-297-3955  
info@Transplace.com  
www.Transplace.com

*Transplace is the leading provider of transportation management services and logistics technology, helping manufacturers, retailers, and distributors optimize supply chain operations and increase financial performance. Offering a complete suite of transportation management, strategic capacity, and cross-border and global trade services, Transplace's customizable logistics solutions and best-in-class technology gives businesses greater control of their transportation operations and enhanced visibility of shipments and overall supply chain performance.*

*With deep expertise in key vertical markets, including consumer packaged goods, manufacturing, retail, and chemicals, Transplace works to strategically design and manage customer networks in the most efficient, cost-effective manner. As North America's largest transportation management provider, Transplace leverages its entire network to solve large-scale, complex supply chain problems for its customers. From small-to-medium businesses to global brands, Transplace delivers the optimal blend of actionable business intelligence and operational excellence you need to manage your supply chain with certainty.*

### UTECO North America, Inc.

3400 Town Point Drive  
Suite 160  
Kennesaw, GA 30144  
tel: 770-427-4100 ● fax: 770-427-4872  
north\_america@uteco.com  
www.utecona.com

*UTECO is a leading manufacturer of flexible packaging equipment. Established in 1985, we have grown to become the largest manufacturer of flexographic and gravure presses. Innovation has always been a key-point at UTECO, not only in the design and creation of leading edge equipment, but also with the ability to tailor machines to the specific needs. Offering equipment for flexible packaging, corrugated, and pre-printed liner board for solvent, water, UV and EB inks, and coatings.*

### Watson Standard

616 Hite Road  
Harwick, PA 15049  
tel: 724-275-1000 ● fax: 724-275-2000

www.wikoff.com

*Wikoff Color Corporation is an employee-owned ink and coating solutions provider, supplying converters across the industry with the highest levels of service and value. As a leading supplier of quality, tailor-made inks and coatings since 1956, Wikoff Color remains devoted to creating high-performance products that increase efficiency and deliver solutions to an ever-changing market. Wikoff Color prides itself on a high level of technical expertise and customer support, which is why we develop an ongoing, consultative relationship with our customers – helping them solve problems, gain advantages over their competitors and become more profitable. With 28 locations strategically placed, Wikoff Color is able to deliver outstanding service and technical support.*

## SUPPLIERS TO FLEXIBLE PACKAGING MANUFACTURERS

### Windmoeller & Hoelscher Corporation

23 New England Way  
Lincoln, RI 02865  
tel: 401-333-2770 ● fax: 401-333-6491  
info@whcorp.com  
www.whcorp.com

*Windmoeller & Hoelscher Corporation is a major supplier of advanced flexographic and gravure printing presses, blown and cast film extrusion systems, multiwall bag making machines, as well as form, fill, and seal (FFS) equipment for the flexible packaging industry in North America. W&H's engineering excellence guarantees customized engineering solutions: from a single machine order to a turnkey factory.*

*Since its inception, W&H has been granted over 1,500 patents worldwide, including the oscillating haul-off technology, internal bubble cooling, and the OPTIFIL P automatic die control. The company is well known for many industry "firsts," including the introduction of the first CI press in 1954 (OLYMPIA 1275), and for the 1997 launch of NOVOFLEX, the industry's first gearless, direct drive, infinitely variable flexo press.*

*In addition to supplying the world's most comprehensive machinery program for the flexible packaging industry, W&H also offers an extensive and reliable service program. W&H service is available "24/7," utilizing a comprehensive multi-million dollar warehouse to deliver the majority of parts right from our Rhode Island stock. Furthermore, W&H's 200,000 sq. ft. (18,500 m<sup>2</sup>) Technology Center in Lengerich, Germany, offers the most advanced training and testing labs for printing, extrusion, and packaging machinery.*

## INDUSTRY FACTS AND FIGURES

- The flexible packaging industry had \$31 billion in sales in the United States in 2017.
- Flexible packaging is the second largest packaging segment in the U.S., garnering about 19% of the U.S. \$167 billion packaging market.
- The flexible packaging industry directly employs about 79,000 people.
- Flexible packaging converters range from small manufacturing companies operating a single facility to large integrated corporations with up to 40 individual plant locations.
- The average flexible packaging company employs about 193 people and serves a wide array of markets.
- Exports account for about 5.4% of industry shipments.
- The largest market for flexible packaging is food (retail and institutional), accounting for about 59% of shipments.
- Other markets for flexible packaging include: pet food - 4%; personal care - 6%; tobacco - 3%; other non-food - 5%; industrial applications - 6%; consumer products - 8%; and medical and pharmaceutical - 9%.
