

June 30, 2023

Kathy Bolhous (Chair)
Flexible Packaging Association

The Plastics Hall of Fame requests your help **obtaining nominations** for the Class of 2024. The Plastics Hall of Fame is a global organization whose mission is to identify and honor individuals whose innovations and leadership have advanced the plastics industry and provided valuable solutions to societal needs.

After 50 years, we have inducted 218 members from nine countries into the Plastics Hall of Fame. Our members are pioneering researchers, scholars, innovators, and corporate leaders who created materials, processes, and products that have answered society's needs and transformed our lives. Please review our website (<https://plasticshof.org/>) to learn more.

As our industry evolves, it becomes incumbent upon us to remember the dedicated work of these individuals and how their accomplishments change our lives.

Would you send this **request for nominations** to your members, encouraging them to nominate a leader, scholar, or innovator? You can use this code to go directly to our nomination page.

The nominations for the Class of 2024 will close on October 1, 2023; all nominations received after will be considered for the Class of 2025. We have an induction ceremony every 18 months alternating between NPE and K-Show.

The 10-15 new members will be announced on February 1, 2024. Our gala to celebrate the new members will be on May 5, 2024, in Orlando, FL, during NPE. There is no cost to nominate or to be a member. PHoF is a nonprofit 501(c)3 organization supported by donations.
