The Flexible Packaging Achievement Awards & Innovation Showcase

The Flexible Packaging Association (FPA) has conducted the annual Flexible Packaging Achievement Awards Competition since 1956 to showcase the industry's innovation and the advances that have changed packaging. The competition is among the most respected in the industry thanks to the outstanding caliber of entries, the objective and methodical judging process, and the extensive media coverage of the competition winners. The competition's focus on new technologies, processes, printing techniques, and sustainability of flexible packaging places the Achievement Awards Competition in a class by itself.

FPA is pleased to present the 2025 *Flexible Packaging Achievement Awards & Innovation Showcase*, which features flexible packaging solutions that meet expectations and needs through advancements in materials, graphics, structure, new uses, extended shelf life, and sustainability.

The "Achievement Awards" section of the showcase highlights the 20 winning entries, arranged by award level: Highest Achievement, Gold, and Silver. The entry categories include expanding the use of flexible packaging, packaging excellence, printing, shelf impact, sustainability, and technical innovation.

The "Innovation Showcase" section includes the competition entries, which are presented in alphabetical order by package name. For this year's competition, FPA received 67 package entries for the competition, with a total of 226 entries (some packages were entered into multiple categories).

FPA congratulates the winners and thanks all of the companies that participated in the 69th Annual Flexible Packaging Achievement Awards Competition. Special thanks are given to the 2025 competition judging panel: Bilge Altay, Ph.D., assistant professor of packaging and graphic media science at the Rochester Institute of Technology College of Engineering Technology in New York; Chris Lyons, group president of *Packaging Impressions* magazine in Pennsylvania; and Scott Wilkins, founder and lead consultant at Scorcia Packaging Resources, LLC, in Texas.

Comprehensive lists of FPA converter, associate, and supporting members are also included.

HIGHEST ACHIEVEMENT AWARD

The Highest Achievement Award is evaluated by the judges as possessing overall packaging excellence and significant attributes in all award categories as well as contributing most to the advancement of the industry.

PRO-EVO® RECYCLABLE FL

*Highest Achievement Award
Gold Award – Packaging Excellence
Gold Award – Technical Innovation
Silver Award – Sustainability*

Manufacturer: ProAmpac

Website: proampac.com

End User/Customer: Nestlé Purina® PetCare Company

Plant: White House, TN

Designer/Design Firm: ProAmpac

Key Supplier(s): Information not available

Description: PRO-EVO® Recyclable FL is a high-performance flexible packaging solution that meets sustainability goals while maintaining reliable functionality. This curbside-recyclable package is compatible with widely accessible recycling streams, providing consumers with an option that ensures product protection. It features solid print quality and grease resistance. Designed using ProAmpac's advanced material technologies, it offers barrier properties for enhanced shelf life, convenience for consumers, and reduced environmental impact. Supporting Nestlé Purina's commitment as an Ellen MacArthur Foundation signatory, PRO-EVO® Recyclable FL aligns with circular economy initiatives and sustainability targets.

GOLD AWARDS

AARA® BASMATI RICE 5-PANEL POUCH WITH POCKET ZIPPER AND C-CUT HANDLE, 10 LBS.

Gold Award – Shelf Impact

Manufacturer: Paharpur 3P

Website: paharpur3p.com

End User/Customer: Shakti Group USA, Hamilton, NJ

Plant: Information not available

Designer/Design Firms: Paharpur 3P Pvt. Ltd. and Star Rice Land

Key Suppliers: CK Zipper Pvt. Ltd.; Dow; Ester Industries; ExxonMobil Product Solutions; Henkel Adhesive Technologies India Pvt. Ltd.; Reliance Industries Limited; Sakata Ink (India) Pvt. Ltd.; Siegwerk India Private Limited; and Toppan Specialty Films Pvt. Ltd.

Description: This 5-panel pocket zipper pouch with a unique printing design and premium matte finish look is a perfect packaging solution for packaging 10 lbs. of rice. The package is thoughtfully designed to protect against moisture and oxygen ingress with the help of a barrier packaging material and a reclosable pocket zipper. When designing the pouch, we considered the technical aspects and physical appearance by giving this pouch a unique printing design and matte effect film, making it aesthetically attractive and eye-catching to consumers.

FRITO-LAY SUPER BOWL LVIII COMMERCIALLY COMPOSTABLE PACKAGE

Gold Award – Packaging Excellence

Gold Award – Technical Innovation

Silver Award – Sustainability

Manufacturer: Printpack

Website: printpack.com

End User/Customer: Frito-Lay North America, Inc.,
a division of PepsiCo

Plant: Villa Rica, GA

Designer/Design Firm: PepsiCo Design + Innovation

Key Supplier(s): Information not available

Description: Super Bowl LVIII offered Frito-Lay the opportunity to highlight its pep+ (PepsiCo Positive) sustainable goals with a direct-to-consumers package at its “Chip Strip” in Las Vegas. Consumers enjoyed their favorite Game Day snacks, including Lay’s®, Doritos®, CHEETOS®, and Tostitos®, all in eye-catching, commercially compostable packaging. The packaging incorporates unique graphic elements and hidden “Easter Eggs” synonymous with Las Vegas, the Super Bowl, and Frito-Lay, and showcases Frito-Lay’s sustainable commitment to “building a world where packaging never becomes waste.”

GOLDFISH® CRISPS, 6.25 OZ.

Gold Award – Shelf Impact

Manufacturer: Printpack

Website: printpack.com

End User/Customer: Campbell’s Snacks/
Pepperidge Farm® Incorporated

Plant: Villa Rica, GA

Designer/Design Firm: Sterling Design – NY

Key Supplier(s): Information not available

Description: This is Pepperidge Farm’s newest addition to its lineup is Goldfish® Crisps. To make a big splash, the new packages have a different form factor than other Goldfish® products. The goldfish inside are larger than other varieties with a package to match. The three new flavors—Sour Cream & Onion, Cheddar, and Salt & Vinegar—are showcased in vibrant, color-coded, 6.25 oz. packages with a flat bottom that stands on the shelf and offers an outstanding billboard effect.

GOLD AWARDS

HIPPIE ORGANICS® ORGANIC ASPARAGUS

Gold Award – Sustainability

Silver Award – Expanding the Use of Flexible Packaging

Silver Award – Packaging Excellence

Silver Award – Technical Innovation

Manufacturer: PPC Flex

Website: ppcflex.com

End User/Customer: HIPPIE ORGANICS®/
Alpine Fresh, Inc.

Plant: Payson, UT

Designer/Design Firm(s): Information not available

Key Suppliers: Futamura USA, Inc.; INX International Ink Co.; Miraclon; PPC Flex; and TIPA®

Description: HIPPIE ORGANICS® Organic Asparagus has a winning combination of a bright and happy design with a beautiful print. HIPPIE ORGANICS® strives to keep its products down to earth. With that in mind, this asparagus bag is printed and laminated using totally compostable material, a win for the environment.

INDI GRAND BALTI CURRY SAUCE

Gold Award – Printing

Manufacturer: Integrated Plastics Packaging

Website: ipp.ae

End User/Customer: Panesar Foods Ltd.

Plant: Information not available

Designer/Design Firm(s): Information not available

Key Supplier(s): Information not available

Description: This vibrant stand-up pouch for sauces features a high-quality 7-color print with a purple background, highlighted by gold foil accents and an inline registered matte varnish. The design combines glossy and matte finishes to create an eye-catching shelf presence. Functional features include tear notches for easy opening, rounded corners for consumer safety, and a robust sealant layer that withstands high-temperature filling without leaks.

PEPSICO SMARTFOOD® WHITE CHEDDAR POPCORN PACKAGING

Gold Award – Printing

Silver Award – Shelf Impact

Manufacturer: Bryce Corporation

Website: brycecorp.com

End User/Customer: Frito-Lay North America, Inc., a division of PepsiCo

Plant: Searcy, AR

Designer/Design Firm(s): Information not available

Key Supplier: Sun Chemical Corporation (inks)

Description: Bryce Corporation and Frito-Lay, a division of PepsiCo and a leader in snacking, collaborated to develop a limited-edition Smartfood® White Cheddar Popcorn package. This project showcases both organizations' mastery in flexographic printing and graphic design, featuring strikingly vivid colors and sharp details that captivate consumers. As a leader in the packaging industry, Bryce continues to elevate brands by providing packaging that leaves a lasting impression and sets a new standard for excellence.

PRESERVE® TOOTHBRUSH POUCHES

Gold Award – Expanding the Use of Flexible Packaging

Manufacturer: Nosco

Website: nosco.com

End User/Customer: Preserve®

Plant: Pleasant Prairie, WI

Designer/Design Firm(s): Information not available

Key Suppliers: Film Suppliers: Charter Next Generation and Inteplast Group (Nosco built custom construction); Laminate Supplier: Inteplast Group; Ink Supplier: HP Indigo ElectroInk; Printing Press: HP Indigo 20000; Laminator Supplier: Karlville Solventless Laminator; and Nosco Packaging Advisor: Bill Nimmer

Description: Preserve's toothbrush pouch, designed for Trader Joe's®, embodies sustainability and functionality. This recyclable flexible packaging option is printed digitally to meet brand specifications, enhancing shelf appeal with vibrant graphics. Each pouch effectively houses a toothbrush that features a handle crafted from recycled yogurt cups, appealing to environmentally conscious consumers seeking sustainable products.

GOLD AWARDS

PROAMPAC SPOUTED POUCH FOR ORTHO® HOME DEFENSE®

Gold Award – Expanding the Use of Flexible Packaging

Manufacturer: ProAmpac

Website: proampac.com

End User/Customer: The Scotts Company LLC

Plant: Hanover Park, IL

Designer/Design Firm: ProAmpac

Key Supplier(s): Information not available

Description: ProAmpac's Spouted Pouch for Ortho® Home Defense® combines the advantages of rigid and flexible packaging to offer product protection and convenience. Utilizing chemical and ultraviolet-resistant printing and laminating, the pouch is durable and designed for consumer ease. The pouch serves as a refill to the rigid container and applicator, reducing plastic waste by 90% and making it an environmentally friendly option. With a strong shelf presence, enhanced functionality, and sustainable benefits, this packaging solution demonstrates innovation and reflects consumer-driven sustainability.

TERREGLOSS™ AND TERRECOTE™ COMPOSTABLE BUTTER WRAP

Gold Award – Sustainability

Manufacturer: Novolex

Website: novolex.com

End User/Customer: Various

Plant: Information not available

Designer/Design Firm: Novolex

Key Supplier(s): Information not available

Description: TerreGloss™ and Terrecote™ butter wraps earned Biodegradable Products Institute certification as compostable in commercial facilities—a feature that consumers and dairies have long sought. The wraps use a proprietary blend of wax without intentionally added per- and polyfluoroalkyl substances. This high-performance blend protects the butter while making the wrapper easy for consumers to open. Offered in a gloss or matte finish, with custom designs available, the wraps are manufactured from a renewable paper base and use environmentally friendly ink.

ALPINE MDO SYSTEMS: THE KEY TO SUSTAINABLE SOLUTIONS

ALPINE AMERICAN, INC. • (508)655-1123 • WWW.HALPINE.COM

SILVER AWARDS

AMCOR MODA VACUUM PACKAGING FOR U.S. BEEF EXPORTS

Silver Award – Sustainability

Manufacturer: Amcor Flexibles North America

Website: amcor.com/afna

End User/Customer: Information not available

Plant: Information not available

Designer/Design Firm(s): Information not available

Key Supplier: Amcor Moda Packaging Solutions (pairing equipment)

Description: The Amcor Moda vacuum packaging solution is a streamlined tubular rollstock/on-demand bag-making system for fresh meat processors. Used for U.S. beef exports, the solution reduces material costs by up to 30%, lowers packaging inventory requirements, and reduces packaging stock keeping units by printing on the tubing as it runs. Export inserts that must be dated and manually inserted are eliminated. The versatile tubestock packages many sizes and cuts of bone-in and boneless meat. High-resolution thermal transfer printing prints logos and variable information like dates and time codes directly on the package. Package dimensions and graphics are changed at the touch of a button.

BEGGIN'® BACON & PEANUT BUTTER STIX "FOR THE WIN," 8 OZ.

Silver Award – Shelf Impact

Manufacturer: Printpack

Website: printpack.com

End User/Customer: Nestlé Purina® PetCare Company

Plant: Villa Rica, GA

Designer/Design Firm(s): Information not available

Key Supplier(s): Information not available

Description: To coincide with the Summer Olympic Games and to "invite dog owners and their pets to satisfy their winning spirit," Purina® launched the Purina® for the Win campaign on limited-edition packages. Purina® envisioned a multifunctional package that would capture the coveted Summer Olympic Games' gold medal award symbolism, retain its core Beggin'® and Busy Bone® brand identity, and differentiate its limited-edition package on store shelves, all through the use of unique, eye-catching gold graphics.

BNRG POWER CRUNCH® PROTEIN BARS

Silver Award – Printing

Manufacturer: American Packaging Corporation

Website: americanpackaging.com

End User/Customer: BNRG

Plant: Columbus, WI

Designer/Design Firm(s): Information not available

Key Supplier: BNRG

Description: American Packaging Corporation collaborated with BNRG to deliver a package for BNRG Power Crunch® Protein Bars with a unique combination of two print technologies (digital and rotogravure), registered satin coating, cold seal coating, matte film, and barrier film, all in a service program that was optimized for small and large volume production orders, optimized for BNRG Power Crunch Protein® Bars' range of stock keeping units. Combining these options allowed BNRG to achieve multiple goals such as distinguishing its brand from competitive brands, achieving eye-grabbing shelf presence, highlighting the appeal of its product and its specific messaging points, providing an opening/closing experience, and meeting the economic criteria.

BOON COFFEE SUSTAINABLE MONOLAYER PE-BASED COFFEE POUCH

Silver Award – Shelf Impact

Silver Award – Technical Innovation

Manufacturer: Integrated Plastics Packaging

Website: ipp.ae

End User/Customer: Boon Coffee/Food International

Plant: Information not available

Designer/Design Firm(s): Information not available

Key Supplier(s): Information not available

Description: This recyclable monolayer polyethylene (PE) coffee pouch, with a metallized PE barrier, features a front-load pocket zipper for easy, multiple uses. It incorporates a specially designed coffee valve for PE pouches and boasts high-quality black-and-gold printing with a matte lacquer finish, ensuring a premium shelf presence. This packaging combines sustainability, convenience, and eye-catching design for a complete solution.

SILVER AWARDS

CARGILL TRUVIA® ALL-POLYETHYLENE SPOUTED STAND-UP POUCH

Silver Award – Expanding the Use of Flexible Packaging

Manufacturer: American Packaging Corporation

Website: americanpackaging.com

End User/Customer: Cargill Truvia® Sweeteners

Plant: Columbus, WI

Designer/Design Firm(s): Information not available

Key Supplier(s): Information not available

Description: Cargill Truvia® All-Polyethylene Spouted Stand-up Pouch redefines packaging in the calorie-free sweetener market. This pouch is a blend of high-density polyethylene (PE), low-density PE, and machine direction-oriented PE for the laminated structure and hard spout, aligning with the APR Design® Guide for PE films. The pouch design overcomes the challenges of matching the melting points of the PE laminate to the hard spout for successful bonding. The pouch's lightweight design and user-friendly spout make it a convenient choice, while the superior barrier properties maintain the product's freshness and quality.

MARS SKITTLES® COMMERCIALLY COMPOSTABLE PEG BAG

Silver Award – Technical Innovation

Manufacturer: Printpack

Website: printpack.com

End User/Customer: Mars, Incorporated/Mars Wrigley

Plant: Villa Rica, GA

Designer/Design Firm(s): Information not available

Key Suppliers: Printpack and Danimer Scientific

Description: As part of Mars' continued work to create a healthier planet, the Mars Skittles® Commercially Compostable Peg Bag was developed in partnership with Printpack and Danimer Scientific to give consumers a more sustainable way to Taste The Rainbow®. This commercially compostable packaging was the subject of focused development over the past three years, when maintaining packaging performance, aesthetics, and consumer experience were necessities. In 2024, the Mars Skittles® Commercially Compostable Peg Bag received Biodegradable Products Institute certification, providing another way to eliminate packaging waste.

MYFITNESS™ ROLLED OATS 5-PANEL ZIPPER POUCH, 1 KG

Silver Award – Expanding the Use of Flexible Packaging

Silver Award – Packaging Excellence

Silver Award – Printing

Silver Award – Shelf Impact

Manufacturer: Paharpur 3P

Website: paharpur3p.com

End User/Customer: Tanvi Fitness Pvt. Ltd., Silvassa (DNH)

Plant: Information not available

Designer/Design Firms: Paharpur 3P Pvt. Ltd.
and Mensa Brands

Key Suppliers: CK Zipper Private Limited; Dow; Ester Industries; ExxonMobil Product Solutions; Henkel Adhesive Technologies India Pvt. Ltd.; Reliance Industries Limited; Sakata Ink (India) Pvt. Ltd.; and Siegwerk India Private Limited

Description: This 5-panel zipper pouch with a unique printing design and premium matte coat effect is a perfect packaging solution for packaging 1 kg of rolled oats. The package is thoughtfully designed to protect the natural flavors from moisture and oxygen ingress with the help of high-barrier packaging material and a resealable zipper. When designing the pouch, we considered the technical aspects and physical appearance by giving this pouch a unique printing design and matte effect to make it aesthetically attractive and eye-catching to consumers.

SILVER AWARDS

ONCE UPON A FARM™ CHEERCIRCLE™ PE RECYCLE-READY SPOUTED POUCH USING AMPRIMA® PLUS FILM AND THE VIZI™ CAP

Silver Award - Sustainability

Manufacturer: Amcor Flexibles North America

Website: amcor.com/afna

End User/Customer: Once Upon a Farm™

Plant: Information not available

Designer/Design Firm(s): Information not available

Key Supplier: Cheer Pack North America

Description: Once Upon a Farm™ refrigerated spouted pouches offer farm-fresh nutrition from baby's first foods to school snacking to extra nutrition. Made with organic, non-GMO fruits and veggies, and no added sugar, the products are offered in CHEERCircle™ polyethylene recycle-ready spouted pouches. The premade spouted pouches feature AmPrima® Plus material, which is designed to meet the APR Design® Guide for recyclability but retains needed quality and durability. The spouted pouches incorporate CHEER PACK® Vizi™ caps, reducing the amount of plastic in the spout and cap by over 30% versus the previous Once Upon a Farm™ spouted pouch and cap package.

PROACTIVE RECYCLABLE® RP-1000

Silver Award - Technical Innovation

Manufacturer: ProAmpac

Website: proampac.com

End User/Customer: Marks & Spencer Select Farms

Plant: Europarc, Grimsby, Great Britain

Designer/Design Firm: ProAmpac

Key Supplier(s): Information not available

Description: The ProActive Recyclable® RP-1000 is a curbside-recyclable, fiber-based packaging solution for Marks & Spencer Select Farms Organic potatoes. It offers robust product protection with premium sealant technology, optimized for high-speed form-fill-seal equipment. The eye-catching design enhances shelf impact with high-quality flexographic printed graphics. Made from renewable resources, this sustainable packaging replaces conventional laminates and aligns with eco-conscious consumer trends, promoting recyclability and reducing environmental impact.

STARBUCKS® COFFEE DESIGNS

Silver Award – Printing

Silver Award – Shelf Impact

Manufacturer: American Packaging Corporation

Website: americanpackaging.com

End User/Customer: Starbucks® Corporation

Plant: Columbus, WI

Designer/Design Firm(s): Information not available

Key Supplier(s): Information not available

Description: Each Starbucks® design maximizes the quality and flexibility of rotogravure printing. Deep rich colors, long smooth vignettes, and high vibrancy metallic colors all come together to reproduce these difficult design elements. In addition, each Starbucks® design takes full advantage of the use of gloss and matte effects to create further package interest. Starbucks® designers have strategically chosen different elements on the package to highlight, creating additional depth and interest. American Packaging Corporation's HPE Roto™ engravings and printing provide superior quality and durability to continually achieve consistent print results. The result is glorious graphics and eye-grabbing shelf impact.
